The reports of board of directors and the company's operating results for 2019 with details set out in the 2019 annual report were submitted to the shareholders in advance. They can be summarized as follows:

2019 marked Pico Group's 50th anniversary and global success while Pico (Thailand) celebrated its 15th anniversary of being listed on the Market for Alternative Investment (mai) stock exchange and will commemorate the company's 40th anniversary in 2021. These auspicious occasions highlight the potential and strength of the company in the ever-changing environment.

Pico Group has conducted its business based on the concept of “Drive Change” for four consecutive years. In 2019, the company continued to carry out the concept and also explored the idea of “Diversity”: 1) Diversity in Business — the company acquired subsidiaries in many different industries 2) Diversity in People — the company had a diverse workforce with diverse ethnicity, nationality, culture, personality, and generations to better understand differences and needs of customers 3) Diversity in Unity — the company capitalized on a diverse workforce working together in harmony. The concept of “Diversity” developed into the strategic plan “One Pico, One Story, One People, and One Hope” to maximize business value, encourage creativity, and sustainable growth in the organization.

Several businesses were going through a critical time in the past year, facing challenges from economic, social, political, and technological changes around the globe such as US-China trade war, Hong Kong’s political unrest, and environmental and climate crises. The marketing and public communication industry was no exception. Pico Group and Pico (Thailand) therefore implemented a proactive strategy to readily adapt to change. As a “Total Brand Activation” company, Pico is committed to create effective brand communication to build a client’s brand to be registered in the hearts of target customers amidst challenges and changing megatrends.

The past year has brought great pride to Pico (Thailand) as the company staged installments at the “Rama IX Museum” in commemoration of the late King Rama IX of Thailand and to educate the Thai audience about his way of thinking and problem solving through scientific approach. The museum is ASEAN’s largest ecology gallery — a knowledge base for learning the importance and issues related to ecosystem and environment — with the belief that human beings are able to learn to maintain a sustainable, ecological balance and live in harmony with nature. The museum was officially opened to the public last December.

2019’s operating result shows the revenue of 1,536 million Baht from all services, a 24% decline from last year due to the flagging global economic situation which affected the country’s economy, client’s businesses and marketing activities, government’s impending special projects, and production of installations at the Rama IX Museum that was concluded in March 2019.

However, owing to the company’s increased cost efficiency, gross profit grew from 20% in the previous year to 24% in 2019. Operating results of each business unit are shown in detail as follows:

1) Trade Show, Exhibition Management and Services Unit generated 830 million Baht revenue, a decline by 22% compared to the previous year. Highlighted projects included administration, design, and arrangement of exhibitions and activities at the Digital Thailand Big Bang 2019, National Science and Technology Fair 2019, Startup Thailand 2019, the 35th Motor Expo and the 40th Bangkok International Motor Show.

2) Event Marketing and Branding Unit generated 387 million Baht revenue, a decline by 16% compared to the previous year. Highlighted projects included event marketing for major automotive companies.

3) Knowledge Communication Unit generated 269 million Baht revenue, a decline by 41% compared to the previous year. Highlighted projects included permanent installations in the Rama IX Museum and digital media for Mahidol University's Mahidol Chanel.

2020 was a challenging year for many entrepreneurs as a result of several crises and fast-changing ecosystem. Pico (Thailand) is a "Total Brand Activation" company that aims to become a powerful communication platform using state-of-the-art technology to provide effective brand communication for clients. It helped businesses succeed in regard to finance, value, and branding with a competitive edge over competitors.

Driving business at a time of change, Pico realized the importance of mindset and staff development, especially among the younger generation that would be a significant workforce in the future, as generation Z showed interest in social responsibility and sustainability more than others. Since 2014, Pico (Thailand) has always recognized the importance of corporate social responsibility and has been carrying out the project "Global Care in Action". Such a company's vision coincided with a major social event in 2019, in which TIME magazine named Greta Thunberg TIME's Person of the Year. Thunberg became the face of a new generation that has an acute awareness of environmental issues, climate change, and sustainability. This global event just highlighted the company's broad strategic vision and business operations led by a profound understanding of the changing economic and social context.

The company has committed to support corporate staff on every level to realize their potential so that they are prepared for any future change and find opportunities in the midst of crisis to generate profits and bring sustainable success to the clients as well as the company.

In 2020, the company will continue to bring in revenue, maintain profits, and provide shareholders a substantial return. The firm will also create economic, social, and technological sustainability in the business ecosystem for the prosperity and sustainability of the Thai society in the future.

2. According to note 29 to financial statements “Business Segment Information”, what is the revenue under “Others Business” excluding dividend income and share of profit from investments using the equity method, amounting to Baht 62.3 million accounted for 4% of total revenue?
3. According to note 31 to financial statements as at October 31, 2018 and 2019, the company has bank letters of guarantee as required the by the contract with customers amounting to Baht 179 million and Baht 83 million, respectively. When will such letters of guarantee be returned? Will it be returned in cash?

5. With reference to Key Audit Matters on the revenue recognition, the revenue recognition could be affected from work delay. What are the causes of work delay? And will it have an impact on the money collection?

Mr. Chajjit Tehasuwanarat :

1. Related parties trade accounts receivable amounting to Baht 2.2 million is a trade account receivable with a related party, Fifty Plus Asia Co., Ltd.
2. Revenue under "Other Business" is the revenue from other business rather than Exhibition, Event Marketing, Museums Exhibit, Knowledge Communication and Organizer segment.
3. Generally when making agreements with government agencies or big corporate, it requires us to provide the letter of guarantee according to the amount of agreements. The significant amount of letter of guarantee for the past years was mainly due to the big projects the company’s received e.g. Rama 9 Museum, etc.

Mr. Chaijit Tehasuwanarat :

1. Since the withholding tax is calculated from gross revenue while the corporate income tax is calculated from net profit, the different amount results in withholding tax deducted at source. The company requests the tax refund every year when filling tax to the revenue department. The period of time to receive tax refund depends on the examination of Revenue Department officers. Normally the company always received the refunded amount. This matter has been discussed with the external auditors, the audit committee and the board of directors.
